ENERGY FLOW**

**ENHANCES SPORTS
PERFORMANCE**

**NO DRUGS OR
STIMULANTS**

What Is Phototherapy?

The science of phototherapy, which has been around for about 100 years, uses light to improve the health of the body. As far back as two thousand years ago, the ancient Greeks had a center for studying the effects of different colored lights on the body. Even the ancient Egyptians, who promoted health by focusing sunlight through colored glass on certain areas of the body, understood this concept.

How Our Phototherapy Patches Work

Your body emits heat, including heat in the infrared spectrum. Our patches are designed to trap this infrared energy when placed on the body, which causes them to reflect it back to stimulate specific points on the skin that can promote a general state of health and healthy activity unique to each LifeWave patch.

What makes one LifeWave patch different than another?

Each patch is exclusively designed to reflect particular wavelengths of energy that stimulate specific points on the skin. This enables each patch to provide unique wellness benefits to the user. No drugs or stimulants enter your body.

INSTRUCTIONS

Place one set of Energy Enhancer patches on the body. Always place the WHITE patch on the RIGHT side of the body, and the TAN patch on the LEFT side of the body. Apply the patch to clean, dry skin in the morning. Patches may be worn for up to 12 hours before discarding. Keep well hydrated while using this product.

WARNINGS

Remove immediately if you feel discomfort or skin irritation occurs. Do not reuse patch once removed from the skin. For external use only. Do not ingest. Do not use on wounds or damaged skin. Ask a health professional before using if you have a health condition, any questions or concerns about your health. Do not use if pregnant or nursing. Not intended for use on children. Do not apply/use patches other than as directed. Product to be stored at room temperature.
